## ABOUT

SixStars (sixstars.app) is a free, fan-made companion for Grand Theft Auto VI, which Rockstar Games has scheduled for November 19, 2026 on PlayStation 5 and Xbox Series X|S. The app brings news, an interactive map of Leonida, guides, cheats, a wiki, a release countdown and pre-launch checklists together in one place, with a 100% progress tracker from launch day. It works in 18 languages and installs like an app on phones and desktops. Every fact on SixStars carries a confidence label (official, reported, rumor or unconfirmed), and each page lists its sources. SixStars is an independent fan project, not affiliated with Rockstar Games or Take-Two Interactive.
